Political Decision Making In Saudi Arabia

Mr. Mithaq Khyrallah Jalud

Abstract

Saudi Arabia is considered one of the axial States in the region and its regime is classified within the absolute royal ones ruled by Al-Saud Since the alliance with Shykh Mohammed Bin Abdulwahab in 1744. The religious Factor is one of the most Significant Factors in the Kingdom. The King is the axis of political process having the authorities with the help of princes as well as Council of ministers. It is worth mentioning that the King dom witnesses on active motion which inspires that reform is Coming ahead.
