Praise be to Allah .prayer and peace be upon the Messengerrs and his good pure and his friends granite in Miami were Andalus passing through politically volatile stable sometimes and turbulent other times due to fascinate internal or because of the tide and Christian were Andalus exposed to famine repeated because Azerov natural and difficult climatic drought.

Which was from time to time .and raids that used to come on the green and the ground Vantage for the death of many until he was buried in the tomb per number of people without washing and no prayer Ftertpt about it the whole spread of disease multiple epidemics of this area in front of these difficult circumstances called for the need to these difficult put an end to these conditions difficult . which was reflected negatively on the economic situation and then on the social reality and the health of the people of Andalusia were not the only reason for poor health conditions for those .but that the circumstances stable political ;known to Andalus from time to time as wehh as economic prosperity was reflected was also a negative impact on the health of its people and in particular on rich class of them for this needed attention to the movement of scientific and especially the science of medicine he received in the eras of Andalus different from the era of succession to the cgildren of illiterate and marabouts and monotheists of prosperity and superiority.
