**Abstract**

In order to reach to teach the skills required well and achievement is to reach the summit to recruit true skills during the game or competition. It is through the experience of researchers a game of volleyball noted that many coaches do not take into consideration the media and modern methods of learning the basic skills and special skill crushing the ball hit the plane. Where is the stage of learning the basic skills of the most important and most difficult stages to be taken care of. So the researchers felt to design a program using multimedia for Ttoirada of skill landslide hit junior volleyball for the purpose of

gaining time and effort to be effective educational method used by coaches to achieve the best results and research aims to:

- 1 - Design multi-a Baalosaút educational program to enhance the performance skill landslide hit junior volleyball club denominator.
- 2 - Get the overwhelming performance of the skill of beating junior volleyball in the denominator club.

Researchers used experimental method for suitability nature of the research problem, identify the research community players junior volleyball and numbered (24), was chosen as the research sample way of simple random number (16) and then divided into two groups (control group, experimental), and the researchers conducting the experiment exploratory testing and then was extracted scientific basis for the tests, and was processing the data through the appropriate statistical methods including (median, Rubaie deviation, Caucasians, Mann-Whitney) through the findings by the study were the main conclusions are:

- 1 - the approach taken training from his coach a positive impact in the development of skill tests landslide hit junior volleyball.
- 2 - there is a preference for the experimental group in the development of skill tests landslide hit junior volleyball
- 3 - The use of multimedia (a visual display "Data show", video cameras, Filx stained the sequence of motor skills, the model district) has a big role in the development of tests of skill beating overwhelming volleyball junior through increased motivation in the competition between the players.
